

## Community Informatics Employment Resources

SI Career Services has put together this resource to guide you in your job or internship search in the community informatics field. Note that this resource is not comprehensive; there are numerous CI resources available related to the nuances of the field that we could not include in this document. The purpose of this resource is to make you aware of some of the main resources available and to also provide you with gateways to resources that will provide you with further information for the field of your personal interest.

SI Careers is open to suggestions of additions or removals to this resource. If you would like an electronic version of this document, email your request to Kelly Kowatch at [kkowatch@umich.edu](mailto:kkowatch@umich.edu)

### Community Informatics

Also known as community networking, electronic community networking, community-based technologies or community technology. There are four main fields of community informatics: international, community or social work, e-government and e-governance, and social responsibility.

### Job Sites

*Note that all sites listed are not CI-related only, but may include CI-related positions*
