SCHOOL OF INFORMATION
UNIVERSITY OF MICHIGAN

3 days. Free. Fun.

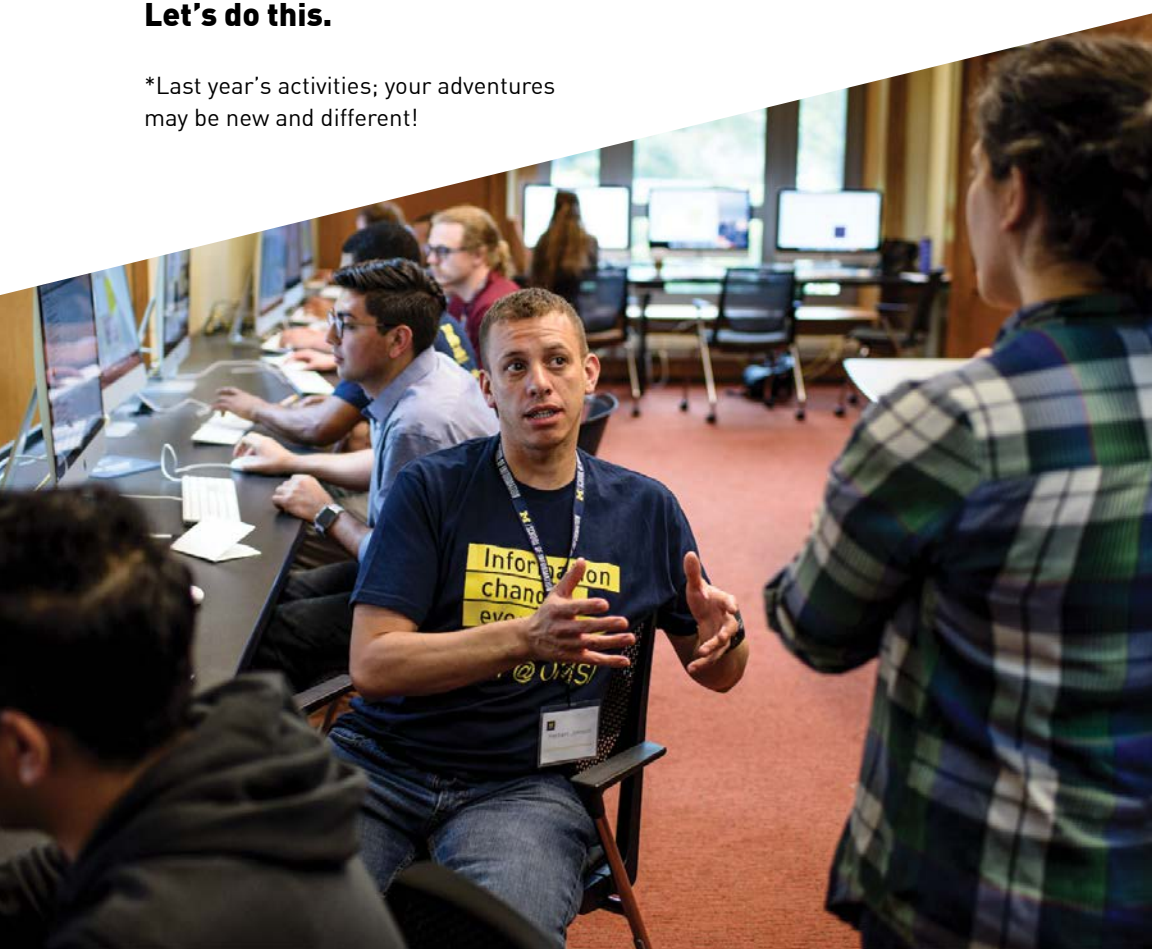

Designed for community college students

- Learn about biases in coding.
- Dive into social network analysis.
- Create user-centered designs.
- Discover your personal and professional strengths.*

Explore the University of Michigan campus and get a taste of life at the School of Information. Our Bachelor of Science in Information (BSI) degree could be your ticket to a rewarding new career. The Community College Summer Institute (CCSI) is a risk-free way to find out.

No previous technology experience is required.
Fees, housing and meals are provided.
Let's do this.

*Last year's activities; your adventures may be new and different!

What participants are saying

"CCSI was amazing because of the staff and their positive energy. In a world of negativity, the UMSI staff definitely has an amazing group of people who care for you as a human being."

"...U-M faculty are welcoming, friendly and excited to help community college students."

"Talking with UMSI staff and getting a up-close feel for the school itself. It helped me envision being a U-M student and made me excited for a future with U-M."

"When you try new things, you discover new passions."

"The most valuable part for me was realizing that despite previous setbacks, a place with U-M is still a possibility."

Highlights of the CCSI program
