

# Course Syllabus for SIADS 643: Machine

## Learning Pipelines

### Course Overview and Prerequisites

Students will gain an understanding of how machine learning pipelines function and common issues that occur during the construction and deployment phases. Students will learn how to prototype, test, evaluate, and validate pipelines. By the end, students should be able to build an end-to-end pipeline for supervised machine learning tasks.

The prerequisites for SIADS 643 include:

- SIADS 542: Supervised Learning
- SIADS 532: Data Mining I
- SIADS 643: Data Mining II

### Instructor and Course Assistants

Michael Hess, Solution Architect Lead and Adjunct Lecturer in Information  
Email: [mlhess@umich.edu](mailto:mlhess@umich.edu)

Kris Steinhoff, Software Architect Lead and Adjunct Lecturer in Information  
Email: [steinhof@umich.edu](mailto:steinhof@umich.edu)

### Course Communication Expectations

Please use slack for all communications. If slack is not working for you, or there is privacy concern, please email [mlhess@umich.edu](mailto:mlhess@umich.edu) directly. If you have a VISA form please send it to [mlhess@umich.edu](mailto:mlhess@umich.edu) in the first week of classes.

### Textbook Information

[Ameisen, E. \(2020\). Building machine learning powered applications: Going from idea to product. Sebastopol,](#)

[CA: O'Reilly Media.](#)

You can search for this textbook on [lib.umich.edu](http://lib.umich.edu) and find a copy of it online. Please seek out the help of a librarian if you have access issues.

## Learning Outcomes

- Describe the flow of data within an enterprise.
- Explain software best practices for pipeline steps.
- Describe functions of and use Git.
- Build an end to end pipeline for supervised machine learning tasks.
- Listen to industry experts on machine learning pipelines.
- Build and troubleshoot a machine learning pipeline.
- Run an end to end pipeline.
- Recognize common mistakes made in machine learning pipelines.

## Course Schedule

- **This course begins on Wednesday, March 3 at 3AM EDT and ends on Tuesday, March 30, at 11:59AM EST.**
- Weekly assignments will be **due on Tuesdays at 11:59 pm** (Ann Arbor, Michigan time-Eastern Time).

## Weekly Office Hours via Zoom (Ann Arbor, Michigan time):

The schedule of office hours can be found by clicking on the **Live Events** link in the left-hand navigation menu. Additionally, most office hours will be recorded and archived so that you can retrieve them at a later date. Office hours recordings can be found in the respective week/module of the course.

## Grading

Course Item	Percentage of Final Grade	Due
Week 1	20% (25% Quiz: Theia, 25% Test your git knowledge, 50% Re-usable Code)	Tuesday 3/9 11:59pm

Week 2	25% (Creating the cleaning step of a pipeline, Quiz: Pipelines)	Tuesday 3/16 11:59pm
Week 3	25% (Building a pipeline)	Tuesday 3/23 11:59pm
Week 4	30% (Final project)	Tuesday 3/30 11:59pm
<b>Total</b>	<b>100%</b>	

Note: All assignments are required to earn credit for this course.

## Letter Grades, Course Grades, and Late Submission Policy

If an assignment is submitted late, the assignment grade will be docked 10%.

The grading scale for this course is as follows:

A	95%+
A-	90%

B+	87%
B	83%
B-	80%
C+	77%
C	73%
C-	70%

D+	67%
D	63%
D-	60%
F	0%

## Academic Integrity/Code of Conduct

Refer to the [Academic and Professional Integrity](#) section of the UMSI Student Handbook (access to Student Orientation course required).

## Accommodations

Refer to the [Accommodations for Students with Disabilities](#) section of the UMSI Student Handbook (access to the Student Orientation course required). Use the [Student Intake Form](#) to begin the process of working with the University's Office of Services for Students with Disabilities.

## Accessibility

If you have accessibility issues with the material in this class, please reach out to

the instructional team. [Student Mental Health](#)

Refer to the University's [Resources for Stress and Mental Health website](#) for a listing of

resources for students. [Student Services](#)

Refer to the [Introduction to UMSI Student Life](#) section of the UMSI Student Handbook (access to the Student Orientation course required).

## Technology Tips

- Working Offline
  - If you have an issue with ongoing access to the coursera platform, and have docker

running on your local computer, please reach out to the instructional team for help getting setup offline.
